LEADER FOX

History

1988

Future founder Pavel Müller was among the first in the former Czechoslovakia to receive permission to offer bicycle repair services.

1990

After the fall of the communist regime, new opportunities for entrepreneurship opened up in Czechoslovakia. Among the first to seize them was Pavel Müller, who opened a bicycle shop.

2012

We were the first in the Czech Republic to start assembling e-bikes.

2013

Originally a small family business, it has grown into an international bicycle manufacturer. Its models began appearing on trails in Finland, France, and Spain.

1996

In 1996, the LEADER FOX brand was born. Even back then, Pavel Müller was designing the frames himself, while the bikes were assembled in China.

2022

The first series of electric cargo bikes is launched.

History

2004

Bicycle assembly was moved back home to the Czech Republic — specifically to České Budějovice, where it continues to this day. The planned production capacity was originally 5,000 bikes per year.

2005

The DIRTPARADE brand of professional downhill and dirt bikes was born. This new Czech brand brought top-tier bikes to the market for the most demanding riders and lovers of extreme disciplines.

2011

A new modern assembly hall with a paint shop and assembly line was built on Okružní Street in České Budějovice. Thanks to this, the production capacity increased to the current 50,000 bikes per year.

2024

A new chapter of The Good Ride. LEADER FOX undergoes a complete rebranding, bringing new challenges in both marketing and sales.

2026

Leader Fox continues to expand into international markets and develop new technologies. At the same time, it refines its models to deliver greater performance, comfort, and reliability for both everyday and sport riding.

FOLDING CITY

E-BIKES

COMPACT POWER FOR MODERN URBAN LIFE

In a city where time and space come at a premium, a folding e-bike is your secret weapon.

Forget traffic jams, crowded trams, and the endless search for parking — with an e-bike, you'll get anywhere quickly, comfortably, and effortlessly.

And when you reach your destination? Just a few seconds and your bike folds into a compact package you can easily take into the office, a café, or your home.

Tifton

The foldable electric bike Tifton is your ultimate companion for urban adventures. Easily stowed in a car trunk, taken on public transport, or tucked away at home — and with electric power, every ride becomes faster, smoother, and effortlessly fun.

DIRTPARADE

RIDE DIRTY. LIVE LOUD.

Dirt Parade is a brand for those who don't ride by the rules.

Our dirt jump and downhill bikes aren't just technically flawless—they're visually uncompromising.

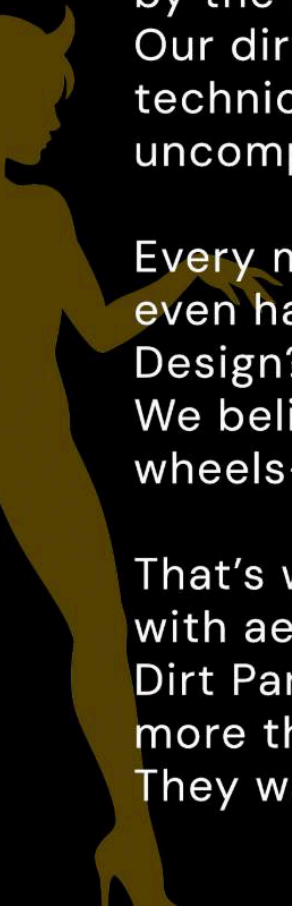

Every model is built to survive hard landings and even harder looks.

Design? Bold. Ride? Rule-breaking. Style? Yours. We believe a bike is more than just a frame and wheels—it's a statement.

That's why we combine top-tier components with aesthetics that provoke and inspire.

Dirt Parade is a community of riders who want more than just to ride the trail.

They want to own it.

cb

Cocaine

COCAINE isn't just a bike. It's a precision tool, built for riders who live in the air and land with millimeter certainty. This isn't a game. It's physics, gravity, and the fine margins that decide everything.

The ultra-durable frame absorbs heavy impacts, the premium air fork holds its line through chaos, and top-tier components take hit after hit without hesitation. Its geometry is tuned for maximum stability during rotations, whips, and tailwhips.
